Warning

All units above 150cm high must be attached to an appropriate structural component of the building using suitable means, as advised by a qualified tradesperson. Freestanding units can become unstable and may topple if climbed upon. The degree of instability depends on many variables and the purchaser needs to be aware of potential instability problems and seek to minimise them. It is undesirable to place objects of interest to children in

view on this type of furniture item. Children may be tempted to climb on the furniture item to retrieve the objects, causing the unit to tip and cause injury. Furniture items can tip under certain circumstances, especially when placed on carpet, uneven or sloping flooring, or when subject to extreme use. TV weight must not exceed 35kgs.
