

Romy

Romy is a glass side table that plays with the harmony of light and shape in a fluid form. Inspired by the intriguing interplay of layered glass, its double wall design creates a sense of depth and subtly transforms its colour. The opaque top floats above the transparent base, creating a compelling composition. Made from handblown glass, Romy is available in smoke and mauve hues, with an optional coloured or stone top.

Product Features

- Hand-blown transparent glass base
- Top available with cut opaque glass or stone

Due to the handmade nature of this product, variations in surface finish are to be expected. This may include air bubbles, waves, and differences in glass thickness and colour.
