

# Arden

Defined by bold joinery, the Arden table range features angular legs expressed through oversized comb detailing. A subtly bevelled edge softens the tabletop, lightening the overall form and adding character to any space. Available with a rectangular or organic curved top, the range includes dining, desk and coffee tables, along with a matching bench designed to accompany the rectangular dining table.

Arden comes in a range of sizes, the Jordan website will allow you to select your preference then further customise finishes.
