

Number bonds to 10

For each question, count the number of objects pictured then work out how much you need to add to get to 10 or 20.

$$1 + \square = 10$$

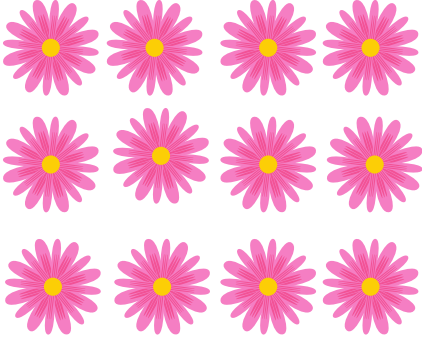

$$\square + 3 = 10$$

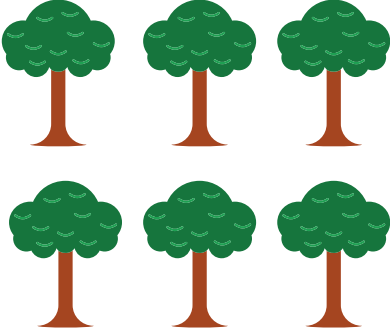

$$5 + \square = 10$$

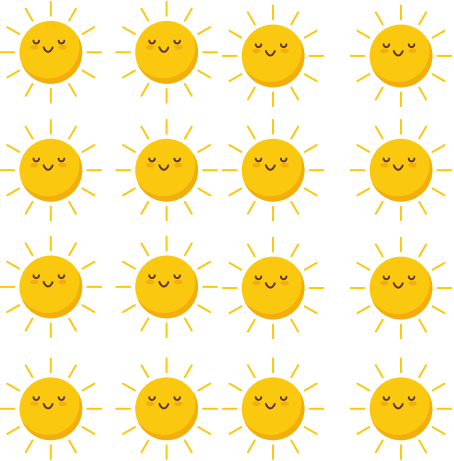

$$\square + 2 = 10$$

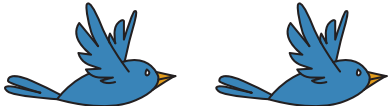

$$10 - 4 = \square$$

Number bonds to 20

 $16 + \square = 20$

$\square + 6$  $= 20$

 $16 + \square = 20$

$\square + 2$  $= 20$

$20 - 5$  $= \square$
