

QUICK AND COZY CUDDLE BLANKET

Blanket Size: 59" x 71"

Project Supplies

- 2 yards of cuddle fabric for the front
- 2 yards of cuddle fabric for the back
- Sewing machine walking foot (optional)

Instructions

Layer the 2 pieces of cuddle fabric right sides together and pin.

Tip: Using a walking foot on your sewing machine makes sewing cuddle fabric easier.

Sew around the edges using a $\frac{1}{2}$ " seam allowance and leaving a 4" opening for turning. You can choose to make 90° or curved corners.

Trim the corners close to the seam and turn the blanket right sides out. Sew the opening closed to finish your cuddle blanket.

Option: You may choose to topstitch around the edge of your blanket after turning it right sides out and sewing the opening closed.
